

# IPTV Channels

Channel URL should contain **“solution”**.

Example: ffmpeg [http://example.com/example\\_stream](http://example.com/example_stream)

**where:**

**ffmpeg** - “solution”

**[http://example.com/example\\_stream](http://example.com/example_stream)** - stream link

*More information about “solution” in the document: [JS API MAG200 \(Rev 1.20\).pdf](#) (Section *stb.PlaySolution*, page 19.) (Appendix 2. Video content formats and examples of use, page 89)*

[how\\_to\\_add\\_channel\\_in\\_stalker.mp4](#)
